 - b. Verify the year of the SAR. 2013-2014 /// 2014-2015 /// etc.
 - c. Check if there is a **C** (correction) in the last page of the SAR, in this way the officer can find the explanation of the error that the student has to correct.
 - d. Check if there is an ***** (asterisk). The University must complete a "Verification worksheet" a student verification page. The University has to document the information of the income the student put on the FAFSA, if the student puts "0" the officer must document how the student remained that year.
- c) The student must fill out the Master Promissory Note (MPN) each academic year, and federal loans officer leaves a copy on the student's record, in case the student has Federal debt earlier.
- d) The officer of federal loans must fill out a form "In-School Certification", in case the student already has a loan.
- e) The student must confirm his registration to verify if it is full-time or part-time, and loan officer begins working in the student's record.
- f) The student must sign the "Disbursement Letter" in the Accounting Department, in which he/she accepts the lower of the tuition fees and other non-institutional deductions.

Article 45. Federal Loan Approved. The Department WILL notify the federal loans officer the amount of disbursement of each student with two disbursements date. Upon receipt of this information, the federal loan officer sends a disbursement letter to the Accounting Department, so that they make the check, charge the student's debt and disbursed what corresponds to the student in the 3 following working days.

Article 46. Academic Year. The academic year consists of two blocks of 15 weeks of instructional time each, completing a total of 30 weeks. The federal loans are granted per academic year in two disbursements.

Article 47. In pharmacy is considered basic subjects: Math I and II, Chemistry I and II, Biology, Physics I and II and Organic Chemistry I and II. For purposes of federal loans, if the student meets the criteria and the basic subjects are validated, he/she will be considered as graduate student, otherwise, his/her level will be no graduate student. The student can make the process before his arrival to the country.

Article 48. In Medicine is considered basic subjects: General Chemistry I and II, Mathematics and Biostatistics, Biology and Genetics, General Physics, Organic Chemistry, Epidemiology and Demography, Anatomy, Neuroanatomy, Physiology, Biochemistry, Embryology, Phytopathology, Medical Microbiology.

Article 49. In the Pharmacy and Medicine Programs, for the purposes of federal loans, the first four quarters they are considered Not Graduate students and from the fifth quarter until graduation they are considered Graduate Students. In the event that the student has the complete basic subjects, he/she will be considered as a graduate student.

Article 50. Amount of Federal Loan. The amount of federal loan subsidized and unsubsidized per academic year and the respective disbursements are determined in the following table. To each disbursement are discounted the bank charges and the respective transfer according to what the bank has established.

Annual Limits for Sub/Unsub Loans	Subsidized	TOTAL (Subsidized & Unsubsidized)
Dependent Undergraduates (excluding dependent students whose parents can't get PLUS)		
First Year	\$3,500	\$5,500
Second Year	\$4,500	\$6,500
Third and Beyond	\$5,500	\$7,500
Independent Undergraduates & Dependent Students whose parents can't get PLUS		
First Year	\$3,500	\$9,500
Second Year	\$4,500	\$10,500
Third and Beyond	\$5,500	\$12,500
Graduate & Professional Students (all years)	\$ 0*	\$20,500

 - i. Do not apply for federal loan, can choose to pay as national student,
 - ii. If the student requests federal loan, will be considered international student and pay as such.
 - iii. During the studies, the students are not able to change their nationality, they will keep the nationality they used since their first registration. As a special case, only if the student acquires Costa Rican nationality will be allowed to change his nationality at the Registration Department.

Article 61. Federal Loan Deliver. After receiving the transfer in the University and the official documentation of the Bank that guarantees the loan, indicating the detail of the

transferred sum, the Accounting Department has a period of 3 working days for the delivery of the money to the student, once revised the student account and deducted the obligations to the University. At the time of the delivery of the money to the student, this must sign a return receipt.

CHAPTER 6. REFUNDS R2T4.

Article 62. Regulations of the Program for Disbursement of Title IV (R2T4) for students receiving federal loans.

Description: Up through the 60% point in each payment period or period of enrollment, a prorated schedule is used to determine the amount of Title IV funds the student has earned at the time of withdrawal. After the 60% point in the payment period or period of enrollment, a student has earned 100% of the Title IV funds he or she was scheduled to receive during the period.

Office involved: The International Relations Department handles the R2T4 Form, its responsibilities are to determine the basic principles, payment period or period of enrollment, withdrawal date, date of determination, leave of absence and case studies as per information notified by Register Office. When a student ceases attendance prior to the end of the term, the student may not be eligible for the full amount of Title IV funds the student was scheduled to receive.

Procedure: Register Office notifies International Relations Department about the absence of the student and declares officially withdrawal of the student. International Relations Department determines the payment period, payment of enrollment, withdrawal date, the last date of determination, calculates percent of period completed, determines amount earned by applying percent completed to total of amounts disbursed and amounts that could have been disbursed, returns unearned funds to Title IV programs, or pays student post-withdrawal disbursement, determines Title IV overpayment. In case student lets the school know they will withdraw, there is an Exit Interview with the student where all information is provided and filed.

In the event that the student decides to withdraw from (a) some subject (s) or from the University at all, the Office of Federal Loans of the University will determine the amount of reimbursement of the Title IV program (Direct Loan or Stafford Loans). The Federal Loans Office uses forms and software that provides the Education Department of the United States to calculate the repayment of Title IV funds. The funds must be delivered to the lender within a maximum of 45 days from the day determined that the student withdrew.

Article 63. R2T4 and Disbursement Period. When the student withdraws during the period of payment, the amount of Title IV of the program of assistance he/she has received up to that moment is determined by a specific formula. If the day of withdrawal is before the day he/she reported to the Registration Department or the director of the program about his/her attempt of withdrawal, or the day that the student delivered the Removal of Subjects Form, if the student received or the University received less assistance than required from the student, he/she can obtain additional funds, if the

student received more assistance than required, the excess funds must be returned by the school and or the student.

Article 64. Removal of Subjects.

The Universidad de Iberoamérica determines that school attendance is mandatory. A justified withdrawal is granted with permission of the Dean, the Registration office and the Office of Federal Loans. If for some reason the student is absent from class by more than 15% of the total of the course in an academic year, he/she will receive an unjustified withdrawal from the professor authorized by the Dean.

Article 65. Attendance. Students who do not attend classes will be reported to the Registration Department, which will notify the Dean of the Faculty. The Dean will consult with the Professor and the Faculty to check if the student never attended or to verify what was the last date of attendance. Without a 'Removal of Subjects Form' officially filled out by the student, the University will take the last date of attendance to perform the R2T4 form.

In case the student notifies the Dean or a member of the Faculty that he/she intends to withdraw the subjects (s), the student will be informed that must fill out the 'Removal of Subjects Form', document the date in which the University was notified and provide the information to the Registration Department. If the student does not give the Form to the Registration Department, but there is evidence in writing that he/she notified about his/her retirement, the most recent date will be used for the calculation, with the R2T4 formula.

Article 66. Failed Students and Attendance. In the event that the student fails all the subjects, the Dean will contact the members of the Faculty to determine if the respective grades were acquired by merit or by lack of attendance. In case it is determined that they were acquired by lack of attendance, the Dean and the Faculty will try to determine the last day of attendance, which is used to determine the R2T4 calculations. If the exact date cannot be determined, the University will assume 50% of attendance and will use that date as the last of attendance. Students who do not attend any class, are not eligible for a federal loan and must return all of the funds to the Bank that guarantees the loan.

Article 67. Amount of Reimbursement. The attendance rate is calculated by dividing the number of days of attendance by the total of days that are in the period of the loan. For example, if the student completes 30% of the study period, he/she has received 30% of the financial support. Once the student completes more than 60% of the class, the academic support received will be awarded. In the event that the student did not receive the total of the federal loan, he/she can request it or reimburse it. The Federal Loans office will use the R2T4 Forms of the United States Department of Education to determine the amount of the loan that the student can remove or refund.

Article 68. Institutional and non-institutional Charges. The student, when register in University and apply for federal loans, will automatically authorize the University to deduce the institutional and non-institutional charges. The University may use all or a part of the federal loan to cover tuition costs, registration and other non-institutional expenses. For any other charges, the University needs the student's permission to make payments. In the event that the student does not grant permission will not be offered the student federal loan.

Article 69. Special cases. There are federal funds the student requests at a certain moment, and that once approved he/she cannot receive them for failing to meet the eligibility requirements of the University, stipulated by this Regulation:

- a) In the case of a student of first entry and first academic year who hasn't completed the first 30 days of the program before his/her retirement, this student will not receive federal loans. In case the first 30 days have passed, the student will receive part of the federal fund.

Article 70. Funds Excess. In case the student or the University (on behalf of the student) receives an excess of federal funds, the University will return the part of the federal funds equivalent or lower to:

to. The institutional charges multiplied by the percentage of not awarded funds, or

b. The total amount of excess funds.

The student is responsible of reimbursing the remaining amount. Any loan that may be repaid by the student, must be paid according to the "Master Promissory Note".

Article 71. Refund. Title IV funds are reimbursed in the following order:

- a) Unsubsidized Federal Stafford loans
- b) Subsidized Federal Stafford loans
- c) PLUS Loan Funds
